Growing "Weed" Seed.

Sweet clover, formerly considered a rank weed, is now being grown for seed by an increasing number of Ohio farmers. This "weed" seed now sells for \$25 a bushel.

When growing seed for this purpose, it is well not to have an exceedingly thick stand. It is seeded on wheat or rye in the spring. A hay crop can be cut in the fall if it is desirable to do so; otherwise nothing more is done to it until the following spring. To insure a seed crop, the first growth is allowed to mature seed rather than attempt to secure both a hay crop and a seed crop.

The ordinary grain binder is the most satisfactory machine with which to harvest the crop. Care must be exercised in cutting it so that it is not too dry, or it will shatter badly.

Probably the best way to thresh the seed is to run it first through a regular grain thresher and then through a clover huller. Yields of seed vary from two to ten bushels per acre.

This and further information concerning the culture of sweet clover is contained in a free circular just issued by the Agricultural College Extension Service, Columbus.

Plant Lice With Us.

Plant lice in various colors, which annually cause considerable loss to garden crops, are with us again. Their presence is generally first noted by a curling up of the leaves, which they attack on the under side.

The spray sold in the form of nicotine sulphate is the best treatment for

all plant lice on garden crops, says T. W. Parks, extension entomologist of the Ohio State University. When it comes in contact with the bodies of the lice it kills them in from one to four hours. It is best to use a little soap in the spray to make it stick to their bodies and spread over the plant. Use 1-2 teaspoonsful of the nicotine sulphate and 1 cubic inch of laundry soap dissolved in a gallon of soft water. This must be applied with good pressure and to the under side of the leaves. The lice cannot be killed unless the spray comes in contact with their bodies.

Agents In 78 Counties

Fifteen counties undertook agricultural agent work during the past year, thus raising the total to 78 in which cooperative agricultural demonstration work is being conducted. Each county in the state except Vinton now has a county farm bureau, and several of the ten counties in which agricultural agents are not employed are planning to make appropriations looking toward the employment of such workers. Many other states are reporting similar and even greater growth of farm bureau organizations and demonstration work.

Infertile Eggs Never Spoil

"A clean infertile egg will never rot," says E. L. Dakan, a poultry specialist at the Ohio State University. "It will dry up if left in the sun long enough, but there will be no odor and no decaying. If eggs are to reach the consumer as a clean, wholesome food the rooster must be eliminated."

THIS IS SOUND LOGIC—PASS ON TO A FRIEND

Has it occurred to you that the dollars you save now will go twice as far in purchasing a home, automobile, or other necessities, when normal conditions return? The record high wages, salaries and bonuses of to-day, make this a most logical time to save.

Every dollar deposited to-day in a savings account, will be worth \$2.00 in buying power when prices drop, in addition to drawing interest compounded semi-annually.

Appreciating the importance of this opportunity we urge you to add as much as possible to your savings account regularly. We believe the real value of this suggestion will be strikingly apparent to you later on.

Our officers appreciate your patronage and want your connections with this bank to be of distinct benefit to you, as well as pleasant relationship.

We hope you feel free to make full use of our facilities in all departments.

COURTS

NEW CASES

Mary A. Sias has brought suit for divorce against William B. Sias. She recites that they were married April, 17, 1918 and have no children; that he has been guilty of extreme cruelty, frequently beating her; that she has supported herself and defendant. She says that she purchased 17 acres of farm land and the deed was executed to both jointly, that she still owes \$1,000 on this property, covered by mortgage. She prays the court to grant her full title to the land. The defendant, she says, left her May 21, 1920.

May Arnold sues Alvah Carsten, Arthur Carsten and Carl Carsten, executors of the will and testament of Louise E. Carsten, deceased. She asks that the will be set aside as Louise E. Carsten was of unsound mind when the will was executed and that undue influence was brought to bear. The will was attested by J. W. Seymour and Loyal Watters. Louise Carsten died February 6, 1920 and the will was, on March 22, filed for probate. It was admitted May 5, 1920. The will was dated August 23, 1919.

Nettie Ripley has sued Roland Ripley for divorce and the custody of their ten-year-old boy. She charges extreme cruelty, his abuse resulting in impairing her health. They were married April 1, 1905. She says she owns 127 1-2 acres of land at Chatham and asks that the defendant be denied all right to title in said land.

The Philadelphia & Cleveland Coal Co. sues The Lodi Mill & Elevator Co. for \$395.50 with interest from January 3, 1920, the principal being for the purchase of coal by defendants, amounting to 45.2 tons.

John B. Hackathorn sues Stephen, Abraham and Edgar Hackathorn, et al for partition of the David Hackathorn estate, consisting of 1.95 acres in Montville township. David Hackathorn died October 31, 1899.

MALLET CREEK

A charming wedding was witnessed at the home of Mr. and Mrs. George Starr, at noon Tuesday, June 1, when their eldest daughter, Louise, was married to Mr. Earl Pierce. Only the immediate families and Mrs. Emma Phillips and Althon Brinker were present. "Oh Promise Me" was played on the victrola. At 12 o'clock Mrs. Carl Starr began the opening strains of Mendelssohn's wedding march, followed by "Lohengrin." Rev. Linard officiated, using the ring ceremony. The bride was handsomely gowned in white Georgette crepe, over white silk and carried a bouquet of white roses. Miss Helen Starr, sister of the bride, acted as bridesmaid and wore blue crepe-de-chine over blue silk and carried a bouquet of pink and white carnations. Myron Pierce, brother of the groom, acted as best man. The bridal party stood in an arch beneath white bells, the entire house being beautifully trimmed with flowers. After congratulations, a three course dinner was served.

Later in the day the happy couple left by auto for Niagara Falls, returning Sunday. The bride's traveling suit was blue serge. They will be at home to their many friends at Lester after July 1st.

The contracting parties are two of our finest young people, and we extend to them our heartiest congratulations. G. A. Hinman and family, J. P. Indoe and family, Mr. and Mrs. H. A. Indoe, and Miss Gladys Indoe attended the Indoe reunion at Granger, Saturday.

HERE ARE REASONS

FOR BIRTH RECORDS

Horse and cattle breeders owning "blooded" stock do not fail to have their animals "registered." It adds to their value and is therefore justly regarded as highly desirable.

Contrasting this attitude with that of careless physicians and parents, the public health service gives the following reasons why baby's birth should be registered:

1. To establish identity.
2. To prove nationality.
3. To prove legitimacy.
4. To show when the child has the right to enter school.
5. To show when the child has the right to seek employment under the child labor law.
6. To establish the right to inheritance to property.
7. To establish liability to military duty, as well as exemption therefrom.
8. To establish the right to vote.
9. To qualify to hold title to, and to buy or sell real estate.
10. To establish the right to hold public office.
11. To prove the age at which the marriage contract may be entered into.
12. To make possible statistical studies of health conditions.

Where roses and white lilies blew,
But no more shall the pencil trace
The blackness of her eyebrow's hue
Such artifices none may buy—
The price of them is too darned high.

How They're Made

THE SECRET OF THE SAVINGS TO YOU

So many people ask us why it is that we can sell Clothcraft Clothes at such moderate prices while other clothes seem so much higher in price.

Our first answer is, "They do not cost us as much" but there is a better reason than that. The fabrics cost practically the same but Clothcraft Clothes, being made in such enormous quantities by scientific methods, cost much less per suit.
